

# SR SECURITY SERVICES LTD

Our business is your Security

**SR SECURITY** is a privately owned company specialising in the provision of total security solutions. With a highly trained, fully licensed team of security professionals, we provide innovative integrated security solutions to industry, commerce, construction and public sector organisations nationwide. The scope of services we offer consist of manned security, mobile patrol/key holding, alarmed response and security systems. We pride ourselves on delivering quality services that exceed our customer's requirements and expectations.

### ► Manned Guarding

Our manned guarding services provide:

- Protection of premises against unauthorised access or occupation.
- Protection of property against destruction damage, or theft
- Protection of individuals against assault or injuries that might be suffered as a result of the unlawful conduct of others or breaches in health and safety regulations.

With a highly trained, fully licensed team of security professionals, SR provides manned guarding security solutions to industry, commerce and public sector organisations, including, local authorities, retail parks and private organisations nationwide.

### ► Mobile Patrols

Our mobile services are a cost-effective option for small and medium-sized businesses, where one security officer serves multiple customers within a limited geographical area and carries out beat patrol, call-out services and opens and closes business premises. Beat patrol can be internal or external or a combination of both, and consists of multiple tasks in addition to crime prevention such as shutting down energy-consuming equipment at night, checking equipment and machinery, access control etc.

### ► Event Security

SR Security has a wealth of experience providing security, car park management and stewarding services for exhibitions, concerts, sporting events, product launches, private parties and temporary commercial or leisure workplaces, throughout the UK. We undertake all associated practices related to the security provision including liaison with the licensing agencies and emergency services, emergency planning and training requirements of the customers own employees.

### ► CCTV Monitoring

We can provide fully trained personnel to monitor your CCTV systems. Whether it be private or public space surveillance you require, our team of licenced operatives are trained in the use of the most modern digital systems available. As an added bonus this service can be used in conjunction with our ALARM RESPONSE division resulting in a more cost effect solution to your security needs.

### ► Alarm Response & keyholding

When an alarm of some kind is activated at a customer's premises, whether it is an intruder alarm, fire alarm or plant equipment, one of our alarm response officers responds and acts according to predetermined instructions at the location. This usually involves checking the exterior and interior of the customer's building or facility. The officer is in constant contact with the alarm monitoring center and can if necessary alert the police or fire department. If required, the officer will contact on-call personnel, such as a plumber in the case of a water leak. Other call-out services might be of a medical nature. If a person is injured at work a security officer can provide basic first aid until an ambulance or medical assistance arrives or can assist with transportation.

To arrange a free, no obligation security survey and quote, or if you require any further information please email; [sales@srsecurityservices.ltd.uk](mailto:sales@srsecurityservices.ltd.uk) or call 0161 870 6363.
